EARNED CREDIT - The above prices are subject to an earned credit discount which is given to those accounts who qualify on the basis of frequency of shipment and total number of cuttings purchased during the year.

GROUP PRICING (advance orders) - To encourage the placing of advance orders for a series of shipments, we offer the lowest price in accordance with the quantity ordered on any particular variety. For example a customer who orders 100 cuttings of a variety, 10 weekly shipments would receive the 1000 price on each shipment of that variety.

INSTRUCTIONS FOR ORDERING

CARE OF CUTTINGS WHEN RECEIVED: If your cuttings seem wilted remove wrappers and dip them tops and all in cool water and set the roots loosely in a flat of damp moss for a few hours, or over night, out of doors in the shade or under a cool bench where the wind does not blow on them. If you do this you will find they will revive 100% and then are ready to pot or transplant. NEVER POT A WILTY PLANT. You may need to shade some according to the weather. A little wilting after potting will not harm and a light syringing occasionally will help very much. If cuttings are crisp the morning after 24 hours from potting this shows they are taking water and your danger from shipping is over.

Orders accepted will be subject to the above terms.
All orders shipped from Toledo, Ohio.
